

North Gibson School Corporation
Alternative Learning Models 2020-2021

In order to help our parents prepare for potential learning scenarios that may need to be implemented throughout the school year, we are providing the following information about school attendance alternative options for 2020-2021:

Alternative #1: Hybrid Attendance Model

- Group A: Last Name A-K
- Group B: Last Name L-Z
- Accommodations will be made for families who have students with multiple last names living in their homes.
- Group A: Attends Monday and Wednesday
- Group B: Attends Tuesday and Thursday
- All students will be in virtual learning on Friday.
- Teachers will be using Google Meets and Canvas to provide virtual classroom instruction. Virtual Instruction may be in the following formats:
 - Live Google Meets Instructional Sessions
 - Pre-recorded instructional lessons posted to Canvas.
- Additional virtual learning activities/resources will be used at the discretion of the teacher.
- On the days that students are present at school, students who do not have internet access or computer access will be provided paper copies of assignments to complete during virtual learning days.
- Virtual student attendance will be based on the completion of required assignments.
- Students who do not have internet access or access to a computer or other internet connected device must notify the school office.
- On virtual days, students involved in extracurriculars may not arrive at school for practices, meetings or events until 3:00 P.M.

This option may be implemented at points in the school year when infection rates are increasing, but in person attendance is still possible with smaller numbers of students in attendance each day.

Alternative #2: Full Virtual Learning Model

- Teachers will be using Google Meets to provide classroom instruction. Virtual Instruction may be in the following formats:
 - Live Google Meets Sessions
 - Pre-recorded instructional lessons posted to Canvas
- Additional virtual learning activities and resources can be used at the discretion of the teacher.
- Virtual student attendance will be based on the completion of required assignments, which could include attending live Google Meets sessions with the teacher.
- Students who do not have internet access or computer access will be provided assignments to complete. Those who do not have internet or access to an internet connected device must notify the school office within 24 hours.
- Paper Learning Packets will only be provided to students who do not have internet access and/or device access at their home.
- Extra-curricular activities may need to be postponed when virtual learning is deemed necessary. This decision will be made at the time of closure after consultation with local health department officials.

This option may be implemented at different times throughout the school year when infection rates are high and in-person attendance is not allowed. This option may be used at individual school levels, while other school levels are able to continue learning in-person or able to continue the hybrid attendance model.
